

FIG. 1 is a top-down view of a circular device. The device features a central cross-shaped structure (54) with four quadrants. Each quadrant contains a circular element (60) with a shaded center (62). The device is surrounded by a circular ring (50) with a hatched pattern. The central cross-shaped structure is labeled 54, the circular ring is labeled 50, the four quadrants are labeled 58, the central cross-shaped structure is labeled 56, the circular ring is labeled 64, the central cross-shaped structure is labeled 66, the circular ring is labeled 68, the central cross-shaped structure is labeled 62, the circular ring is labeled 60, the central cross-shaped structure is labeled 52, and the circular ring is labeled 90.
